RESOLUTION

No. 15471 /En., Bhubaneswar dated 26/11/25  
ENG-TDER-RR-0007-2025

Sub: **Conversion of Kutra Switching Station to 2x50 MVA, 132/33 kV Grid Sub-station"**

In view of the increasing industrial power demand in Rajgangpur area vis-a-vis the inadequacy of the existing transmission facility in meeting the projected load growth, it has been decided to convert the existing 132kV Kutra Switching Station into a full-fledged 132/33kV Grid Sub-station. The project involves installation of 2x50 MVA, 132/33kV power transformers along with the required bays, switchgear, protection, control and communication facilities.

The project will decongest the existing load on nearby overloaded Grid Sub Stations at Rourkela, Rajgangpur and Sundargarh thereby enhancing system reliability. Besides meeting the industrial power demand, it will ensure improved quality of power supply to small scale industries, agricultural and domestic consumers in the nearby TPWODL command areas.

The project will be executed by OPTCL under EPC mode of contract. The created asset will be owned by OPTCL. The Operation & Maintenance Cost of the project will be provided in the Annual Revenue Requirement (ARR) of OPTCL.

The total cost of the project is Rs.34.30 Crore, out of which 30% (Rs.10.29 Crore) will be provided as equity support from the State Government and the remaining 70% (Rs.24.01 Crore) will be arranged by OPTCL. The project will be implemented within a period of 18 months, with a targeted completion timeline of FY 2026-27.

By Order of the Governor,

(Vishal Kumar Dev)

Principal Secretary to Government
